Company Name	Summary of services
Amber Services	Amber Waste Services operate across South East Wales providing a comprehensive service and operating their own MRF. <b>Offering their own line of bins collecting recyclates segregated or mixed.</b> Amber collect <b>paper, cardboard, plastic, polythene, polystyrene, wood, glass cans</b> from commercial organisations. <b>Amber provide regular collections, a bespoke service is offered including audits,</b> collected materials are reprocessed in the UK and units provided are maintained.
Ash Waste Services	Ash Waste Services operate in Wrexham and through North Wales collecting <b>cardboard, paper, plastic bottles/pots/trays/ tubs, and glass.</b> Materials are collected segregated at source and dual stream from commercial premises, restrictions relate to the presentation of material for collection - to be placed in chargeable bins provided by Ash Waste Services. Collected materials are taken to an MRF, end markets are known and materials reprocessed in the UK. <b>Regular collection services are offered and a bespoke service including audits and advice to customers and advice on target materials and own bin units.</b> Furthermore support is offered before, during and after scheme implementation.
Baglan Waste Clearance	Located in NPT providing collections of <b>glass, cans, paper, cardboard, wood, construction, plastic film/pots/bottles/trays but not asbestos.</b> Materials are collected dual stream and comingled with glass and taken to a waste transfer station and reprocessed in the UK. Reprocessed glass is used in construction and the company offers a bespoke service but does not offer RotG units for hire or purchase.
Biffa Waste Services Ltd	Servicing a majority of Wales Biffa collect <b>paper, cans, plastic film/bottles/pots/ tubs/ trays, cardboard and glass.</b> Materials can be collected source segregated, dual stream and co-mingled without glass. Restrictions relate to volumes of materials and type of premises. Materials collected are taken to both MRF and Transfer station, purchased by brokers and reprocessed in the UK. Regular collection can be made and events collection with the establishment of a contract with Biffa. Collection costs <b>vary but RotG units are provided for hire or purchase and a bespoke service organised. Maintenance of units is provided</b> but not litter picking, materials data can also be provided.
CAD Recycling Ltd	Located in Colwyn Bay and servicing the following local authorities Denbighshire, Conwy and Anglesey for gypsum collections. CAD collect the following materials <b>paper, cardboard, glass, cans, wood, plastic pots, tubs, bottles, trays but not plastic film. Additionally they collect mattresses, carpets and asbestos.</b> Materials are collected source segregated and not co-mingles to avoid contamination, restrictions are in the form of materials presentation for collection. Collected materials are taken to a transfer station and also an MRF in Denbigh then reprocessed in the UK. CAD provides regular collections and <b>is able to provide recycling collection for events and supplies RotG units for hire.</b> Additionally CAD provide a bespoke service and site audits, services are not subcontracted. <b>Litter picking and RotG unit maintenance is conducted</b> and CAD can provide data relating to cardboard collection volumes.
Cae Post	Located in Powys and servicing Powys, Cae Post collects <b>paper, cardboard, glass, cans, plastic film/tubs/tops/bottles/trays and textiles but not wood or construction.</b> Materials are collected only source segregated or mixed stream, taken to an MRF and reprocessed in the UK and purchased by brokers. The company provides both regular collections and recycling collection for events <b>and provides RotG units for Hire.</b> A bespoke service is provided including audits and advice, services are not subcontracted and litter picking services can be provided along with data on material collection volumes and advertising. - Sister Company Ceredigion Waste Services below.
Ceredigion Waste Services	Based in Ceredigion the company provides a service for Ceredigion and Powys council but only C&I and skips in Powys and cardboard to Machynlleth. <b>Paper, cans, and plastic bottles only are collected along with cardboard, glass and wood and books.</b> Dry mixed recycling in clear bag - for commercial customers. Paper and cardboard is collected source segregated but will also collect mixed recycling commingled without glass. Collected materials are sent to both MRF and waste transfer station and reprocessed in the UK. Services offered are regular and flexible collection and litter picking with service price negotiable and based on volume and collection frequency's. <b>RotG units are not provided</b> for hire or purchase but a bespoke service is provided with site audits and advice provided on units and locations. <b>The company does not subcontract but does work with its sister companies Cae Post (RotG services offered) and CB Environmental Ltd.</b>
Cornhill Environmental Solutions Ltd	Located in Gwynedd Cornhill Environmental Solutions provides its services all over the UK collecting <b>paper, cans, plastic bottles, cardboard and glass.</b> Originally only dealing with WEEE waste materials the company is now diversifying and looking to expand into collecting other plastics. Materials are source segregated/dual stream/co-mingled and co-mingled with glass. Materials that are collected are taken to both an MRF and transfer station and reprocessed in the UK. Cornhill provides regular collections and can offer recycling collection for events. Costs vary dependent on service but a bespoke service is offered including audits and advice <b>including the supply of RotG Units.</b> Working with subcontractors Cornhill can offer a litter picking service and maintenance of units. Cornhill has the ability to provide substantial material collection data. Cornhill is experienced with organising large scale events including Radio 1 Road Show in Bangor.
CWM Environmental	Based in Carmarthenshire and servicing Carmarthenshire the company collects <b>paper, cardboard, steel and aluminium cans, glass, and plastic bottles. Providing both trade collections and kerbside.</b> Materials are collected source segregated and dual stream and transported to a MRF. Materials are reprocessed in the UK and CWM provide advice on which materials to target for collection. CWM Environmental has a Materials Recovery Facility in Johnstown, Carmarthen. CWM Environmental currently recycle products collected via the kerbside blue bag scheme by Carmarthenshire County Council <b>and provide collection service for county provided public and local facilities to dispose of recyclable items.</b>
Cwm Harry Land Trust	Cwm Harry Land Trust have received grant funding from WRAP Cymru to provide dry recycling and compostables, RotG and event recycling collection services.
Environmental Practical Solutions Ltd	Located in Swansea and serving the Vale of Glamorgan, Carmarthenshire and Pembrokeshire the company collects <b>paper, cardboard, glass, wood, cans, plastic film/bottles/trays/pots but does not collect construction waste.</b> Materials are collected source segregated without glass, restrictions include minimum quantities and material preparation for collection. Collected materials are taken to a transfer station and reprocessed in the UK and EU. Collection costs varies according to location and volume - trade waste collections are charged at approximately £5.50 per lift. <b>The company provides a bespoke service including audits and advice, litter picking and maintenance of units and provides collection data. The company currently provide RotG to blue chip companies but would provide the service to others if approached.</b>
Graig Environmental Recycling Services	Graig services Pembrokeshire county council, <b>specialising in ferrous and non-ferrous metals but also collects paper, cans, plastic pots/trays/tubs, and glass with the capability of taking construction.</b> Collected materials are source segregated and reprocessed in the UK using brokers. Dependent on travelling distance £120 transport cost plus rebate or charge for a skip. The company <b>provides RotG units,</b> maintenance and cleaning with litter picking. Additional services <b>include audits,</b> providing a tailored bespoke service. Graig's target specific materials and subcontract but only for the collection of demolition waste. <b>Graig is able to provide waste collection data</b> and additional support for businesses promoting RotG, <b>Graig also support community events recycling.</b>
Grays Waste Management	Located in Gwynedd and Anglesey Gray's service Anglesey, Conwy and Denbighshire collecting <b>paper, cans, plastic film/pots/trays and tubs, also cardboard, glass and wood and farm plastic.</b> Materials can be collected by Gray's source segregated, dual stream, comingled with or without glass. Service is restricted by type of material and presentation. Collected materials are taken to a transfer station and reprocessed in the UK. Grays are able to provide regular collections and collections at events, costs vary but <b>they are able to provide RotG units</b> and offer a bespoke service including audits and advice. <b>Maintenance and cleaning of units is available and advise on target materials along with communication promoting RotG.</b>
Gwendreath Valley Recycling Ltd	Carmarthenshire based company accepting Carmarthenshire County Council's highway waste. They also have an Environmental Permit to accept up to 75,000 tonnes p/a of Industrial, Commercial and Domestic Waste with treatment & Asbestos storage. Planning in the future to locally collect plastics, cardboard, glass and construction waste. Materials collected <b>paper, cans, plastic film/bottles/pots/tubs/trays and cardboard, glass wood and construction materials.</b> Materials collected source segregated, dual stream and co-mingled, however restrictions include minimum quantities and collection frequency relates to material volumes. Materials transported to transfer station but reprocessed in China as UK demand unreliable. Gwendreath offer <b>site audits, promotes RotG and provides material collection data</b> - volumes, weight and material types.
Junk 4 Joy	Junk4Joy offer a RotG service to a range of leisure and hospitality sites across South East Wales.

Company Name	Summary of services
Llanwrtyd Wells Community Transport	Events Recycling Services. Provides service in Powys but can also service anywhere in Wales. Materials collected: <b>Paper, cans, plastic bottles, glass bottles</b> . Materials collected source segregated and comingled without glass. Company has on-site glass recycling - glass cullet used in road construction. The company offers a range of services also including audits before and after events, events policy, advice on composting and management during the event. Llanwrtyd is able to provide recycling collection data. <b>Full service provided including bin hire for events.</b>
Maximum Recycling	Maximum are based in Newport but provided services for Bridgend, Blaenau Gwent, Newport, Monmouthshire, Powys, Pembrokeshire, Torfaen, Vale of Glamorgan, Rhondda Cynon Taff, Caerphilly and Carmarthenshire. The company collects <b>paper, cans, glass, cardboard, plastic bags/pots/tubs/bottles/trays and food but not wood</b> . Materials are collected source segregated, however co-mingled would be considered, restrictions relate to types of materials. Collected materials are taken to a transfer station and reprocessed in the UK. Additional services provided by Maximum include regular site collections and recycling collections from organised events <b>and provides RotG for hire or purchase</b> . Maximum provides a bespoke service and site audits and information of materials to target. Residual waste collections are provided by a subcontractor. Maximum offer litter picking and unit cleaning services, data on collection volumes and communication support.
Rocket Recycling	Located in Caerphilly and servicing the following local authorities Caerphilly, Rhondda Cynon Taf, Merthyr Tydfil, Cardiff and Vale of Glamorgan. Materials collected are <b>paper, glass, cardboard, cans, plastic film/bottles/tubs/pots/trays</b> . Collection methods include source segregated/dual stream/comingled with and without glass. Rocket Recycling subcontract out material collections to others and manage the operation. Restrictions include material type -hazardous and asbestos is avoided. Collected materials are taken to a waste transfer station and reprocessed in the UK. Using subcontractors Rocket can provide regular collections and recycling collection services for events. <b>Rocket do not provide RotG units for hire or purchase</b> but provide a bespoke service including audit, advise, data collection and promotion.
Sameday4u Waste Removal	The company located in Bridgend services Bridgend, Swansea and Cardiff collecting <b>paper, cardboard, cans, glass, wood, construction, plastic film/bottles/pots/trays/ tubs</b> . Material collected are mixed source and co-mingled with glass transported to a waste transfer station. Collection restrictions are material based as Sameday4U will not collect hazardous waste, materials for the company are not reprocessed in the UK. However <b>Sameday4U provide regular site collections and RotG services for events</b> . Cost is subject to distance, quality and timing - Sameday4U <b>do not provide bins but do provide a bespoke service and site audits</b> and data on waste quantities. Sameday4U would consider using a subcontractor for cardboard collection.
Severn Ways Environmental Services	Severn is based in Gwynedd and services Gwynedd Council collecting <b>paper, cans, plastic bottles/pots/tubs and trays, cardboard, glass and wood</b> . Materials are collected source segregated or dual stream and processed by MRF, sold to a broker and reprocessed in the UK. Regular collections can be arranged and recycling collections for events. The price of service is based on location, quantity and type of material for collection. The company offers a bespoke service <b>including RotG units for hire or purchase, audits</b> and advise on materials to target for recycling. The company uses subcontractors and is able to <b>service and maintain units provided. Severn can also provide signage and communications to promote RotG.</b>
Sita Swansea	Sita Swansea services Swansea County Council collecting <b>cans, plastic film/bottles/ pots/ trays/ tubs, cardboard and glass</b> . Materials collected must be comingled without glass and restrictions apply for volume, type of materials, presentation of material and premises. Collection restrictions apply such as quantities, type of material and presentation; presented in Sita bin provided by Sita and location restrictions also apply. Collected materials are pre-processed in the UK but do not go to a broker. Sita provide a regular collection service and provide recycling collections from events with collection costs varying. <b>RotG can be offered on hire or purchase with a bespoke service including audits offered</b> . Sita does not target specific materials and does subcontract services. No litter picking services or unit maintenance is provided or waste collection data by Sita.
Veolia Cardiff	The Cardiff branch of Veolia service South East Wales; Hereford, Monmouth, Cardiff, Newport, Gloucester, all of South Wales but not Brecon. Collected materials are <b>paper, cans, plastic film/bottles/pots/ tubs/ trays and cardboard, glass and wood</b> . Materials are collected comingled without glass, restrictions apply in the form of volume, type, presentation and locations of site. Collected materials are taken to and MRF and transfer station the reprocessed in the UK. Veolia offer a regular collection contract and can <b>provide a events collection service with a bespoke service offer and RotG units available for hire or purchase</b> , however they are not maintained or cleaned, but will be replaced if damaged by Veolia. Materials data collection is available, communications and further advice for client by Veolia.
Williams a Williams Cyf	Located in Pwllheli and providing services in Gwynedd the company collects <b>paper, cans, plastic film/pots/bottles/trays and tubs, cardboard, glass, wood and Construction</b> for recycling. Collection methods include source segregated, dual stream and co-mingled with glass. For collections of council waste materials are collected co-mingled and for non-council waste materials are collected segregated and all are taken to a transfer station to be reprocessed in the UK. Williams and Williams offer a bespoke service.

Company Name	Summary of services
Local Authority	Summary of services
Caerphilly County Borough Council	CCBC collect <b>paper, cans, plastic bottles/pots/tubs/trays, cardboard and glass</b> . Materials are collected commingled without glass and collection restrictions apply in the form of presentation for collection. Commercial bottles for recycling are to be placed in a bin provided by the council. Collected materials are then transported to a MRF and reprocessed in the UK. CCBC provide a regular collection service and event recycling collection. <b>The council does provide RotG units for hire or purchase. CCBC provides a bespoke service including audits and advice on target materials. CCBC can service and clean RotG units and litter pick and provide individual data for organisations on material collection volumes, signage on RotG and further support if requested.</b>
Ceredigion County Council	CCC collect <b>paper, cans, plastic Film/ bottles/pots/tubs/ trays and cardboard</b> , all recyclables are collected comingled with glass in one bag. Restrictions apply regarding the type of material the council will collect from commercial premises. Collected materials are taken to a transfer station and reprocessed outside of the UK. Services offered include regular collections and the council is able to provide collection from events. Service costs for the collection of a comingled bag of recyclates from a commercial property stand at £1.72 per bag. <b>CCC does not provide RotG units for hire or purchase but does provide site audits</b> and advise relating to target materials. Advertising for recycling is provided if necessary and additional support.
City and County of Swansea	CCS collect <b>paper, cans, plastic bottles/pots/tubs/trays, cardboard, glass and wood</b> . Materials are collected source segregated and dual stream and taken to a local bailing plant. Paper remains in the UK and plastic is reprocessed outside of the UK, and glass used in aggregate in the UK. Once a payment has been made and contract established CCS offers a regular collection service and collection of recyclates from events, <b>providing RotG units and a bespoke service including site audits</b> to identify target materials. CCS is not able to provide organisation with site - specific data but does provide communications regarding recycling and additional support if required.
Conwy County Borough Council	CCBC collect <b>paper, cans, plastic bottles/pots/tubs/trays, cardboard and glass</b> . Materials are collected source segregated, restrictions apply in the form of type of material and presentation for collection. Collected materials are taken to a bulking station with all material except plastic reprocessed in the UK. CCBC provides regular collections and collections at events with service costs located on CCBC website. The council <b>does offer RotG units for hire or purchase at a cost and provides a bespoke service including onsite audits and advise on target materials</b> . Services are not subcontracted and CCBC provide servicing of RotG units. Materials collection are not available for individual premises nor is communication promoting RotG.
Denbighshire County Council	DCC collect the following materials <b>paper, cans, plastic bottles/pots/tubs/trays cardboard and glass</b> , with materials collected comingled with glass in the bins provided by the county. Collected material is taken to a transfer station and reprocessed in the UK and purchased by brokers. DCC would provide a collection service for events and storage units at a cost with service costs provided on the council website. The council <b>does provide RotG units for hire or purchase</b> with unit servicing and a bespoke service including audits and advice including materials to target. DCC can additionally provide data regarding material collections weight and volume allowing with communications to promote RotG.
Gwynedd Council	GC collect <b>paper, cans plastic bottles/tubs/trays, cardboard and glass</b> . Material is collected comingled with glass and restrictions apply in the form of materials presentation for collection. Once collected materials are taken to a transfer station/ MRF, materials are purchased by brokers and reprocessed in the UK. Services GC offer include recycling collections from events, service cost vary and are located on the GC website. The council <b>does offer RotG units for hire or purchase and a bespoke service including audits</b> and advise on target materials but <b>does not provide litter picking or RotG unit maintenance services</b> . Data for material collected form individual is not possible - only for the county. Communications promoting recycling are provided.
Isle of Anglesey County Council	ACC collect the following materials <b>paper, cans, plastic bottles, cardboard, glass and wood</b> which are collected source segregated/dual stream and comingled with glass. Restrictions apply to the collection service in the form of type of materials, presentation of materials for collection and site location. Collected materials are taken to a transfer station but are not reprocessed in the UK. The council offers regular collections and can provide collections services for events. <b>ACC does not provide RotG units for hire or purchase but will conduct site audits</b> and provide advice and assistance relating to materials to target. The council does subcontract some of its services and does maintain its own units and is able to provide data relating to materials collection to organisation. It advertises recycling in the county and can provide additional support to businesses.
Merthyr Tydfil County Borough Council	MTCBC collect <b>paper, cans, plastic film and bottles, cardboard and glass</b> . Materials are collected dual stream and comingled with glass. However where high volumes of glass is collected this stream is segregated. Restrictions apply to site location and materials presentation for collection. Once collected materials are taken to a MRF, they are sorted then purchased by brokers and reprocessed in the UK. MTCBC provide a regular collection service and can service events in the borough with recycling collections. <b>The council offers a bespoke service including audits and advice on target materials. A litter picking service is available and MTCBC service and clean their RotG units and provide data on materials collections for organisations</b> . Signage and communications on RotG is also provided by the council.
Monmouthshire County Council	MCC collect <b>paper, cans, plastic bottles/pots/trays/tubs, cardboard and glass</b> . Materials are collected comingled with glass and no restrictions apply. Materials that are collected are taken to a MRF or transfer station in Wales and England with materials being reprocessed outside of the UK. Service costs for commercial recycling are dependent on a contract being in place for residual waste. <b>MCC does not provide RotG units for hire or purchase</b> but will provide advice and on target materials on waste, but no audits. Furthermore, MCC does not subcontract, offer litter picking or service /maintenance of units or materials collection data, however can provide information and signage regarding RotG.
Neath Port Talbot County Borough Council	NPTCBC are currently unveiling RotG throughout the borough collecting <b>paper, cans, plastic bottles/film/tubs/pots/ trays, cardboard and glass and can offer this service to other organisations</b> . Materials are collected both source segregated dual stream once a commercial waste collection contract has been established. Collected materials are taken to a materials recovery energy centre, with some material destined for WDF other reprocessed in the UK and other outside they UK such as plastic are market dependent. NPTCBC provides a regular collection service and a service collection for events in the borough. <b>Service costs vary, however RotG units and household units are provided free of charge</b> . If required the council can provide advise but <b>does not conduct audits. The council does not use subcontractors nor does it litter pick, provide unit maintenance or data on materials collection for organisations</b> . NPTCBC does provide communications on recycling.
Pembrokeshire County Council	PCC collect <b>paper, cardboard, plastic bottles, cans and Glass</b> . RotG units are available for hire or purchase.
